

Service planning, evaluation and re-design

Looking to grow your business?

Agencia can support you with the right tools to develop your organisation in the right way.

Service Planning, Evaluation and Re-design

- Ensuring your organisation's sense of purpose and direction are clear, understood and delivered in everything your people do.
- Supporting you in gaining clarity through effective evaluation of where you are, and where you aim to be.
- Helping you to appreciate where opportunities for savings and development can be made.

Visioning, strategic planning and business planning

**Do you know
where you want
to be as an
organisation?**

Enabling your organisation to harness the focus and drive the required changes when challenging processes.

The strategic plan is a key document for any organisation to gain clarity on the vision and to describe the ownership of its contents by the whole organisation.

We can support you with forward planning, through the creation and implementation of your business plan.

Supporting the development and follow through of the vision throughout your organisation and helping to tackle the challenges of change.

Agencia will give you an impartial and independent assessment and help you get everyone on the same wavelength in these key areas of activity.

Whether it is;

- simply a matter of providing some dedicated thinking time to articulate what you hold in your head, or
- If you need help to challenge and develop your thinking,

Agencia can assist you by:

- Testing your values and aspirations,
- Challenging you about how the world around you impacts on your business, and
- Clarifying what it is that is critical to you.

Service Evaluation

Whatever sector you work in, ***the drive for continuous improvement is constant.***

We can support you by applying Best Value methodology and offer distinctive and effective approaches to independently evaluate the efficiency and effectiveness of what you are doing.

Our approach is:

- Inclusive.
- Recognises the challenges and risks for key stakeholders that successful change management involves.
- Assists partners to establish shared strategic and operational goals.
- Committed to engaging the services users in the evaluation and redesign of services
- Innovative, exploring alternatives to increase efficiency and improve effectiveness

We will help you achieve:

- Clearer aims and ambitions.
- Partnership working and ownership of common goals.
- Ambitious, well-articulated and robust strategies to achieve your desired aims.
- Pragmatic change management and implementation plans.
- Capability and capacity to sustain continued improvement.
